

Adding a Partner Library in Libby

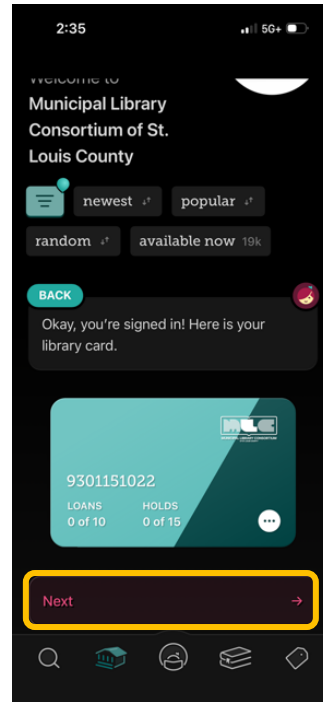

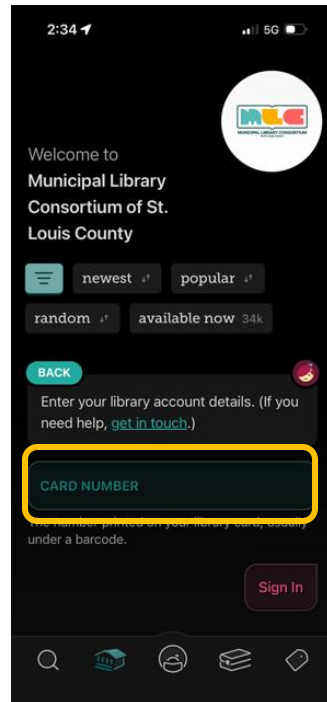

- 1.) Go to your Libby app. If you aren't already signed in, sign in with your Scenic Regional Library or Washington Public Library card number and password.
- 2.) Click on the button in the bottom center and then on **Add Library**.
- 3.) A search bar will appear. Type in *Municipal Library Consortium*. It should be the first one in the list. Select it.

- 4.) The next window will ask you to add a library card for the Municipal Library Consortium of St. Louis County. Click **Sign In With My Card**. On the next page, select **Scenic Regional Library**.

5.) A box will appear asking you to enter your card number. Enter in your Scenic Regional Library card number and click **Sign In**. You are now signed in! Click **Next**.

6.) You can now start browsing the MLC's collection! You can choose to search the MLC collection or just have it as a borrowing option within your saved libraries. If you find an item you want to borrow, select **Borrow** and then click on the pink library name. This will expand to show where the item is available. You can choose which library you would like to borrow from. You can not place holds on MLC items.
