Scenic Regional Library Beginning To Make Big Changes at Sullivan Branch

The Sullivan Public Library joined Scenic Regional Library as the system's eighth branch on Oct. 1. The library has upgraded equipment and expanded services to the branch over the past month and will continue to do so.

Public Computers

In October, Scenic Regional Library increased the number of public computers at the Sullivan branch from three to six. In addition to In-

ternet access, the computers now offer Microsoft Office 2010, which includes Word, Excel, PowerPoint, and Publisher; image editing software (GIMP and Picasa 3); desktop publishing software (Scribus 1.4.3); and audio editing software (Audacity).

The library will be eliminating the branch's wireless password in the near future. Patrons will be able to seamlessly connect their mobile device to the library's free wireless Internet access.

ABCmouse.com

The public computers also offer ABCmouse.com for Libraries, a fully-featured, library version of the award-winning resource that provides curriculum in reading, math, science, social studies, art and music for children ages 2-7. The site contains six levels with more than 450 lessons and 5,000 individual learning activities.

Books by Mail

Scenic Regional has also extended its new Books by Mail service to homebound residents in Sullivan. Patrons who cannot get to the library

because of health, mobility, or advanced age can request books, audiobooks on CD, music on CD, and DVDs and have them delivered to their homes for free. The library has also already extended monthly outreach visits to two nursing homes in Sullivan.

Crawford County Residents

Due to an existing reciprocal borrowing agreement between Scenic Regional and Ozark Regional Library, Crawford County residents outside of Sullivan can now register for a card and use the Sullivan branch for free.

Digital Music and Video

Sullivan residents now have access to Scenic Regional's new digital resources, too. In the spring, the system added Freegal, Zinio and Hoopla. Freegal offers free access to about 8 million songs and over 15,000 music videos. Patrons can check out, download and keep five digital songs each week forever—they never have to return them.
