## Franklin County Judges Approve Community Service Proposal

For the past twelve months, Missouri Board of Probation and Parole, East Central College Adult Education & Literacy, Scenic Regional Library, Missouri Job Center and Four Rivers YMCA's Y-Literacy have partnered to offer the [Community Resource & Education Workshop \(CREW\)](#). People recently placed on probation and parole in Franklin County are referred to the CREW to learn about available educational and job training resources. The program is the first of its kind in Missouri.

The CREW meets at 6:30 p.m. on the last Monday of each month at the Scenic Regional Library's Union branch. People referred by Missouri Board of Probation and Parole are encouraged to invite friends and family members to attend. The meetings are also open to the public.

The workshop involves a tour of the Union branch and opportunity to register for a library card, followed with presentations by East Central College Adult Education and Literacy, Scenic Regional Library, Missouri Job Center, Y-Literacy and other organizations about the resources they offer. Over the past year, 192 people have attended the workshop and 36 have registered for new library cards.

On November 3, the CREW partners met with 20th Judicial Circuit Presiding Judge Gael Wood and proposed allowing probation and parole clients to count time spent attending educational classes toward their community service hours. After meeting with the other judges in December, the proposal was accepted. Presiding Judge Gael Wood noted that improving clients' education levels will have long-term benefits for both the clients and their communities.

Under the new program, probation and parole clients will receive two hours of community service for each hour of class time. For example, a one-hour introduction to computers class offered by the Scenic Regional Library will count as two hours of community service. A one-hour tutor session with Y-Literacy will count as two hours of community service. A three hour resume writing class through the Missouri Job Center will count as six hours of community service.

Representatives from the Missouri Board of Probation and Parole, East Central College Adult Education & Literacy and Scenic Regional Library met with Judge

Wood on February 8 to work out details, such as the way that clients would provide proof that they attended classes.

Tamra Pearson, with Franklin County Probation and Parole, and Steve Campbell, director at Scenic Regional Library, presented a session at the Missouri Library Association Conference in Kansas City on October 1, 2015, about the CREW.

## **Library Building Plan Underway**

Scenic Regional Library is embarking upon a two-year, nearly \$13-million building plan that will completely replace branch libraries in five communities and significantly expand and renovate two existing facilities. The project does not include plans for Union and Hermann, which are still in the developmental stage and will be addressed separately. All the new branches will feature programming rooms, which will also double as community meeting space, and on-site parking. A forum will be held in each community in the coming months to obtain input from the public on the design of the new facilities.

Once the entire building project is complete, including Union and Hermann, the library system's overall size will have increased from less than 42,000 square feet to more than 84,000 square feet.

On February 6, the Scenic Regional Library Board of Trustees selected JEMA and SAPP Design Architecture as the architects for the project. JEMA is located in St. Louis and SAPP Design in Springfield. John Mueller, managing partner of JEMA, has owned a residence in Rosebud for decades. The group has previously designed many public libraries throughout Missouri, notably the Woodneath Library Center in Kansas City for Mid-Continent Public Library and Joplin Public Library. A contract with the firm was approved by the Board at their March 15 meeting.

The architectural firms will partner with Cochran Engineering, located in Union, Missouri, as the project's civil engineer. Alper Audi, Inc., with offices in St. Louis, will be the project's structural engineers; BRiC Partnership, located in Kirkwood, will serve as consulting engineers. The design and engineering work is expected to be

completed and approved by the Library Board by the end of 2016.

In 2015, Scenic Regional Library contracted with Bostwick Design Partnership to determine the sizes of the new buildings while remaining within the library's project budget. The square footage estimates were primarily based on the population within a 7-10 minute driving distance of each community.

Phase I of the building project will include Wright City, New Haven and Owensville. The library plans to break ground in early 2017 on the three facilities. The new buildings are expected to be complete by the fall of 2017.

In New Haven, the new branch will be built on a 1.5-acre site located on Douglas Street, past the Boondocker Inn. The property was donated to the library by long-time resident Agnes Meyer in June 2015. The current branch is 1,500 square feet; the new facility will be 4,500 square feet.

The new Wright City branch will be constructed on a 1.3-acre lot purchased from the Wright City R-II School District in August 2015. The property is located on Wildcat Drive, adjacent the Wright City Elementary School. Currently, the library does not have a facility in Wright City. The new location will be approximately 6,900 square feet and serve as the system's ninth branch. Wright City received a MODOT grant in 2015 which will construct sidewalks connecting the new library with the elementary school.

In Owensville, the new branch will be built on a 1.0 acre site on the corner of Highway 19 and Madison Street, across the street from Save-A-Lot. The site, purchased in October 2015, is a portion of the former Owensville Elementary School 3-5 Center property.

The current branch is 2,500 square feet; the new facility will be approximately 6,100 square feet.

Phase II of the plan will include Warrenton, Sullivan, St. Clair and Pacific. The existing Warrenton and St. Clair branches will be expanded. The library plans to begin construction on the Phase II buildings in early 2018. These new branches are expected to be open by the end of 2018.

In Pacific, the new facility will be built on the corner of Rose Lane and Lamar Parkway. The 1.51-acre lot, located across the street from Bristol Manor, was purchased in December 2015. The current branch is 4,100 square feet; the new facility will be approximately 10,000 square feet.

In Sullivan, a new branch will be built on a 1.5-acre lot on Cumberland Way. The site is located in the area behind Walmart, a short distance from Springfield Avenue. The property was purchased in February 2016 from the First Presbyterian Church. The existing branch is 3,000 square feet; the new facility will be at least 9,800 square feet.

In Warrenton, the library will expand the existing building. The addition will increase the size of the branch from 9,000 square feet to approximately 12,000 square feet. The library purchased a .5-acre lot adjacent the branch for additional parking in May 2015.

A 0.27-acre vacant lot and a house on an additional 0.173-acre lot were purchased adjacent the existing St. Clair branch in August 2015. The house will be demolished. The branch will be expanded significantly and additional off-street parking added. The addition will increase the size of the branch from 4,500 square feet to approximately 9,100 square feet.

The video was filmed by the students in the program under the direction of Josh Hall, and edited primarily by Freddie Stokes, one of the students. The video will be featured on both the City of Union and Washington Area Chamber of Commerce websites. You can find the video on YouTube by searching "Scenic Regional Library" or go directly to <https://youtu.be/8ixBFPAOmac>.
