WHAT'S the latest dirt on Scenic Regional Library's New Haven Branch? On August 23, the library hosted DIY: Potted Mini Succulent Craft, a program where participants decorated their own clay pots into which they transplanted mini-succulents. The group of 19 crafters enjoyed individualizing their pots with metallic appliques, paint, and plant selections ranging from hens-and-chicks to a variety of aloe veras and other small succulents. Pictures of some of the final projects can be viewed on the New Haven branch's Facebook page.
