Stock Donates Magnifying Reader To New Haven Scenic Regional Library

Dr. Wilbert Stock of Kirksville recently donated a magnifying reader to the Scenic Regional Library Branch in New Haven. The Optelec ClearView Plus desktop reader magnifies and enhances text, objects and images in different colors, brightness and contrast. Library staff have been trained to assist patrons with use of the magnifying reader. The device will be especially helpful to library patrons with macular degeneration and other vision

issues. Dr. Stock recently retired from his optometry practice in Kirksville. He is the son of Libby Stock and the late Will Stock of New Haven.

Pictured above, from left to right, are Dr. Stock; Shari Althen, president of the New Haven Friends of the Library; Rachel Terbrock, branch manager of Scenic Regional Library New Haven; and Jenny Potter, children's programmer at the library.
