Just check us out on Facebook!*

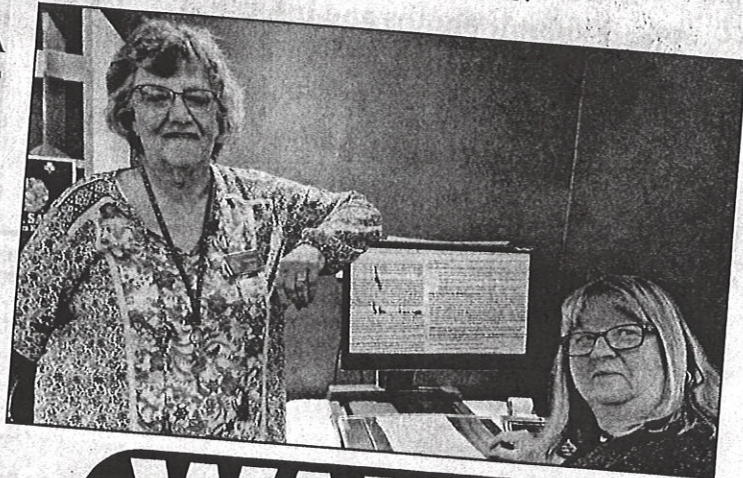

The Vollersten Home - 600 Sunset Lane

The home was built in 2001 and was built to accomodate one person living comfortably in the space. The small size makes it imperative that space is used efficiently.

Old World blown glass Christmas ornaments decorate the living room trees. The other trees display a variety of ornaments, family keepsakes, and travel souvenirs. A Santa collection is also scattered around the house.

**W A N D A
WALKENHORST**
and Sharon Althen
check out the donated
document magnifier.
Sharon found that it
was the perfect device
to allow her to see
her bills and bank
statements much better
with the magnification.
The library would
like everyone to know
that this document
magnifier is available
for public use and is
located next to the
coffee machine.
