Library in Warrenton has excellent selection

The Scenic Regional Library in Warrenton is probably the best library I've ever been to. I use it frequently. I probably read about four books a week and lots of magazines from there; they have an excellent selection. I don't think you can possibly compare it to an elementary school library. Perhaps the caller with the negative comment in Town Talk is used to reading that kind of material more than what is in an adult library. I think they are excellent and they don't charge for overdue books, which is unique.
