

traps are readily available
a fantastic job of eradicating the
problem naturally.

Hot, dry weather is ideal for
spider mite development. Dam-
age may be present even before
the webs are noticed. With spider
mite damage, leaves may be
speckled above and yellowed
below. Evergreen needles ap-

during dry weather
repay you with wor
and bird song. Enjoy
your gardens this
will not regret it.
See you in the g

SCENIC REGIONAL LIBRARY SCHEDULE
