Slow restart at Owensville library

Visitors to the Scenic Regional Library branch in Owensville were minimal on Monday morning as the system reopened all facilities following a shut-down due to the threat of coronavirus. Staff at all the branches are protected by plexiglass screens hung from the service desk (left). To maintain social distancing guidelines, some of the computer stations remain out of service (right). Children's reading programs will remain through a virtual setting on social media and group meetings in conference rooms will not be held.
